Cling film, ABENA Cater-Line, 300m x 30cm, rose, PVC, unperforated, unperforated

- ✓ Extremely stretchable
- ✓ Extremely good adhesion
- ✓ Professional kitchens preferred choice
- ✓ Breathable, limited condensation development
- ✓ Helps refrigerated food maintain its original consistency
- ✓ Factor 3 film
- ✓ Can be used at higher temperatures than normal PVC

Product Description

The cling film can be used to store all types of foodstuffs and for general household purposes. However, avoid using with pure fats, oily and fatty foodstuffs. PVC cling film is very stretchable and has very good adhesion. It is therefore often the choice of professional kitchens. A key feature of PVC is that it is a breathable material limiting condensation. This helps chilled food to maintain its original consistency. This special cling film is a factor 3 film, which can also be used at higher temperatures than PVC film normally can.

Specifications

Base name	Cling film
Brand	ABENA
Sub-brand	Cater-Line
Sub-color	Rose
Features	Unperforated
Perforation	Unperforated
Material	PVC
Length/depth	300 m
Width	30 cm
Weight, net	956 g
Weight, gross	1047 g
Thickness	8 micron
Roll Core Diameter	7,6 cm
Certifications	Food contact materials
Directives, regulations and acts	(EC) No 1935/2004, (EC) No 2023/2006, BEK nr 681 af 25/05/2020, (EU) No 10/2011
